The Seduction Expert

By Saya Lopez Ortega

The Seduction Expert Read Online

She's the seduction expert.

The Seduction Expert Saya Lopez Ortega

Women contact her to take over their love lives. She steps in when they're lost, she's supposed to succeed where they failed. She handles their single status, their relationships, their breakups, and very often their partners' affairs. Her job is a life priority, she spends most of her time at the office or between two flights in business class and the fact of having a sports car that can reach one hundred kilometers in less than six seconds often make her feel like a superheroine in service to women.

The Seduction Expert Review

You'll see, it's much better than spending holidays in St Barts.

Does it seem strange to say that you adored a villain? If so, call me crazy because I loved *The Baroness*, a powerful high society woman, she seems so real that you want more. Five stars because I absolutely could not put the book down and now, I can't wait for more from Saya Lopez Ortega!

The MC is so Devils wear Prada! Can't recommend enough! To read*****

I kept hearing about this book. It was getting such rave reviews in the book blogs I follow.

Well I decided to take a chance on an unknown author and dived into this book. I am so glad I did! It was truly good...

I was hooked from the very first page (the very first word?) and I couldn't get enough of The Baroness aka The Seduction Expert, a powerful lead woman: cold, cynical and narcissistic!

I rarely read a book with a character who shakes up so much the emotions! Thanks to the Author, she did I kept hearing about this book. It was getting such rave reviews in the book blogs I follow.
