And Explorer's modernist interior design, with expansive windows everywhere, plus inviting decks, keeps you connected to the Arctic's stunning vistas even when we're under-way, off to new points on our adventurous itinerary. 15 Shocking Things Scientists Discover As The Glaciers Melt 15 Shocking Things Scientists Discover As The Glaciers Melt. The Earth is going to experience such an "alien" invasion as the permafrost melts. This invasion is not from extraterrestrial origins. It comes from the microbes, bacteria, viruses, and fungi that are many years old and in some case hundreds of millions of years old that are still alive and reactivate when thawed from a deeply frozen state. A Journey to the Earth's Interior: Have the Poles Really ... A Journey to the Earth's Interior: Have the Poles Really Been Discovered? Evidence for Hollow Earth. (Forgotten Books) [Marshall B. Gardner] on Amazon.com. *FREE* shipping on qualifying offers. Book Description: Marshall B. Gardner, a hollow-earth proponent, published the first edition of this book in 1913.

Arctic | National Geographic Society The Arctic is the northernmost region of the Earth. Many Arctic animals even change their coloration seasonally. Species of Arctic fox and Arctic hare, for example, are snowy white in winter but molt and grow a brownish or greyish fur coat during the summer months. Even fluffy white baby seals will ultimately grow up to a dark brown "better to blend in with the dark Arctic ocean waters. The Hollow Earth: Mercator's 1569 Map of the Arctic Mercator's map of the arctic first appeared as a vignette in his 1569 world map. The Flemish geographer and cartographer Gerardus Mercator's methods of map-making were so accurate and reliable that they are still commonly used today (recall the Mercator projection) and have remained virtually unchanged for nearly 450 years. A Journey to the Earth's Interior: Chapter IV. Early Polar ... The sea around the polar opening will be an open one. At some point on the arctic voyage the ice barriers will be passed and the voyagers will enter. p. 102. a region that grows warmer and warmer as they sail up to the polar opening and then over it and on into the interior of the earth.
